**CURRENTLY IN PRODUCTION,
RELEASING IN 2024.**

Dex is a 9-year-old artist, explorer, and 'paleontologist in training'. Like Dan, Trek, and Dana before him, Dex uses the Dino Field Guide and has the magical ability to see dinosaurs in the real world. But Dex envisions them a little differently. Thanks to his artistic eye and thirst for knowledge, Dex wants to reconsider how dinosaurs look, how they act, what they eat, and more! He is not afraid to get right into the action to do it. Fortunately, he's not alone in his quest — his neighbour Kayla is along for the ride and her love of rocks and geology makes her the perfect dino partner. Armed with their transforming dino backpacks, Dex and Kayla become dinosaurs to re-examine everything we think we know about prehistoric creatures, including the iconic Tyrannosaurus rex and Triceratops. Dino Dex continues the tradition of Emmy award-winning adventures, but with a twist.

Dana is a feisty 10-year-old 'paleontologist in training' who (like Dan and Trek before her) eats, sleeps and breathes dinos. So much so that her Dad made her a special backpack that she can transform to look like any dinosaur she wants. Fortunately for Dana, after a chance encounter with Trek and his Dino Field Guide, Dana can now see dinosaurs too! What's more, when Dana transforms her backpack, the dinosaurs think she's one of them – allowing her to get closer to the action than any of her predecessors. With new prehistoric creatures, including for the first time mammals and insects, Dino Dana continues the Emmy award winning tradition of imagining the awesomeness of the past into an adventure in the present.
