Ship goes back to school

by: [Amy Haggart](#) | May 13, 2009 | [Print](#) | [Share](#)

Sinking Ship Entertainment has started principal photography on *The Ocean Room*, the follow-up to its preschool reality show *The Jungle Room*.

Ocean Room (26 x 11) will shoot over six weeks at a community center in Toronto, following kids between the ages of three and six, again with teacher Anthony Randall. The new installment will premiere this September on TVO, Access Alberta and the **Knowledge** Network.

"With *The Jungle Room*, children at home really responded to watching real kids playing, laughing, singing and yes, even fighting and crying," said series co-creator Liz Haines in a release. "By extension, *The Ocean Room* will build on that success by introducing viewers at home to a new group of kids and a new whimsical ocean theme."
